To whom it may concern

I know the Fundacja Splotu Ramiennego since several years and I have collaborated with them .

The work they have initiated is extremely important for the care of the small babies with Obstetrical Paralysis . They are in fact the only body in Poland taking care of these children and giving them a high level of rehabilitative treatment , supervised by Maria Grodner .

I feel very important that they can expand and do not stay dependent of administrative organization .

I feel as an honor to continue the collaboration with them and wish that the time and energy they put in this project be accompanied by other Foundations.

Paris 1/3/2011
